

# S P E C T R E

vlnr.: Arthur, Robin, Daniel, Ines, Alex

Spectre is a progressive metal/rock band from Munich, Germany.

The band currently consists of four members:

Alex (dr., programming),  
Bas (b.),  
Ines (keys) and  
Robin (git., synth., samples)

and is currently in the process of converting itself from an instrumental lineup to a band with vocals.

Spectre's style can be described as modern progressive metal with a technical influence from other musical styles such as post rock and even electronic. A type of music is thus created that is characterised by its dense atmosphere and complexity. Another aspect that defines Spectre is the openness and versatility in their music. The first eight original songs were integrated into the band's first album, "Polarity," which appeared in July 2018 and is available both physically at the band's concerts as well as on Spotify and iTunes.

Debütalbum "Polarity" erschienen 2018

"... in the shadows" erscheint im Sommer 2020

The band's next projects is already in the works: the recording of the second Album "... in the Shadows", which will include the integration of vocals and is planned to be released in summer 2020.
